# IdleLock™

Secure Idling with Key Removed

## Overview

- Anti-theft system that allows the vehicle to idle with the key removed from the ignition and the transmission locked in Park
- Activated by pressing an enable switch and removing the key; inserting the key and turning it to run restores normal operation
- Simple plug and play connections
- Easy to install; no cutting of factory wires

## Features

- **SAFE:** Walk away from your idling vehicle with confidence that everything is safely locked
- **FULL FUNCTIONALITY:** All lights, equipment and HVAC is still fully functional while engaged
- **SECURE:** The engine shuts off if an unauthorized person tries to shift out of Park without the key in the ignition
- Also provides a shift lock that can be used as an interlock for the rear door, or to secure the trunk or gun rack for police vehicles
