

INTERNAL USE ONLY
Conf. Name:
Date Created:
Part Number: A-PIM701-A(-

Charger Police Interface Module Spec Sheet

Directions:

- 1 Choose how you would like your AUX buttons programmed
- 2 Check each of the options you would like programmed on your PIM unit
- 3 Submit form with order

AUX 1-3

AUX Button Options:

Circle Latching, Momentary, "Radio*", or Timed for each button

All outputs are HIGH TRUE

AUX 1	Latching	Momentary	"Radio"	Timed _____ (0 Sec-30 Min)	High True
AUX 2	Latching	Momentary	"Radio"	Timed _____ (0 Sec-30 Min)	High True
AUX 3	Latching	Momentary	"Radio"	Timed _____ (0 Sec-30 Min)	High True

If "radio" is chosen, you must program 2 or more buttons as "Radio" for feature to function correctly

* "Radio" means hierarchical. I.E. when AUX button Two (2) is turned "on" button one (1) is automatically turned off.

X Chime Mute (included)

Chime mute silences the following chimes from the interior of the vehicle:

- ✦ Lights -On Reminder (Key in OFF or ACC, headlights on)
- ✦ Ignition or Accessory on chime(Key in ACC and Door open)

X Secure Park Signal (included)

Provides secure park signal for the gun rack

Black Out Module (-B option)

Eliminates the Parking Lamps, Reverse Lights, and Service Brake Lights

Exit Speed (Speed At which the tail Lights automatically enable)

_____ (5-20 MPH) **(Default 15MPH)**

Surveillance Mode (-S Option)

Integrates the rear backup sensors, and the back up camera. If any sensor detects a presence in the rear of the vehicle while in Surveillance Mode, the vehicle will chime indicating which sensor tripped, and then the PIM will lock the doors & roll up the driver and passenger window.

Flashing Reverse Lights (Default- Enabled)

Enabled or Disabled

Trunk Release Kit (-T option)

Overrides the trunk release - secures the trunk

Includes secondary trunk release button

Steering Wheel Switch Indicator Panel (-W option)

Indicates the status of the steering wheel switches, and Chime Mute.
