

HIGHLOCK

HIGH IDLE AND SHIFT INTERLOCK

OVERVIEW

- This combination lift interlock and high idle system is fully compliant with FMVSS 403/404 wheelchair lift interlocks and ADA Regulations
- Charge Protect, keeps the battery charged
- Idle is automatically engaged when A/C is on
- Plug and play and quick to install
- Self diagnostic runs in the background to detect faults in the system

WHY HIGHLOCK

EFFICIENT

It is an all in one wheelchair lift interlock and high idle system

HIGH IDLE

Monitors OEM Sensor inputs from transmission, engine, charging system, ambient air temperature.

SHIFT INTERLOCK

Electronically locks down the vehicle while lift is in use. Also prevents lift from engaging in unsafe conditions.
