

AutoGARD

Anti-Theft Automatic Shift Lock

Overview

- This theft prevention system automatically activates when the vehicle is placed in Park
- No need to press any buttons to enable; provides instant security when the shifter is in Park and the driver is outside the vehicle
- Perfect for required frequent exiting, such as delivery vehicles and ambulances

Meets new proposed CAAS specifications for anti-theft requirements.

Features

- System auto-locks the transmission when the shifter is in Park, stopping would-be thieves from driving away
- Works with the key in the ignition and the engine either on or off
- Discrete disable switch is easily hidden from view
- Specifically designed for extreme duty-cycle usage of delivery, ambulance and other commercial vehicles

Orscheln solenoid shifter

Orscheln solenoid shifter with custom solenoid for InterMotive application
