# Door Lock Module

Complete Chassis Security

## Overview

- Provides the ability to lock/unlock all doors using a hidden switch, keypad or OEM fob to secure doors remotely
- Controls locks for both the cab and patient compartment
- Specifically designed for Ford chassis

## Features

- Module works on both OEM and aftermarket doors to lock complete chassis
- Triggers locks with ignition either on or off
- Requires minimal connections to OEM wiring
- Includes Intermittent Fault Filter™ (IFF) technology to eliminate false readings

*Product features may vary by make,  
model or year. See instructions  
for complete details.*
