ABOUT

What We Do

InterMotive Vehicle Controls provides commercial safety and performance optimization products. Our **plug-and-play electronic control systems** leverage a vehicle's own data networks to enhance its function in new ways.

Working closely with chassis and vehicle manufacturers, upfitters and fleets, we design and build products that address safety and performance challenges with practical, custom-tailored solutions.
Product Solutions Your Way

Our systems include plug-and-play connections to the OEM chassis that minimize or completely eliminate cutting of factory wires.

To accommodate your unique needs, many InterMotive products allow for custom programming. You can choose to order pre-configured modules, custom configs or program yourself.
Downloadable programming utility software and mobile apps provide instant-change capabilities, so your vehicles function exactly how you want.

Proudly Built in the U.S.A.

Our products are manufactured and assembled in-house by our team of dedicated, highly trained employees. Our on-site engineering team often designs product solutions within weeks, versus OEM improvements, which can take years.

CAN DATA
PRODUCTS

Break Out Box (BOBe™)
Vehicle Network Multi-Access Hub

WHAT IT DOES

• Connects multiple devices to the CAN bus

• Provides passive data acquisition using an auxiliary CAN network

WHY YOU WANT IT

• Removes compatibility issues by decreasing conflicting active requests on the network

• Eliminates the need for multiple harnesses linked to the OBDII/Gateway
J1939 Translator
Uni-directional Communications Portal

WHAT IT DOES

• Allows third-party J1939 devices to be installed on vehicles that do not support its protocol by translating CAN network data

WHY YOU WANT IT

• Transmits all processed J1939 data and does not interfere with the vehicle's data stream

Upfitter Interface Module®
Programmable CAN Data Access System

WHAT IT DOES

• Provides access to CAN vehicle data to activate and control equipment

WHY YOU WANT IT

• Easily programmable using our Graphical User Interface with AND/OR logic

• Access to real-time chassis data allows you to customize up to 8 outputs

IDLE MITIGATION
SYSTEMS

INTERLOCKS

EcoStar™ III

Key In/Out Idle Reduction System

WHAT IT DOES

- Enhanced automatic engine stop/start system provides anti-theft and added customization functions
- Prevents idling, saves fuel and money

WHY YOU WANT IT

- Includes anti-theft features (key-out mode, shift lock and automatic door lock)
- Mobile app allows users to custom program settings, enable manual remote start and track real-time chassis data

Gateway

Shift Interlock and High Idle System

WHAT IT DOES

- Prevents vehicle movement while the wheelchair lift is in use by locking the shifter in Park
- High idle function provides more power when operating equipment and improves A/C performance

WHY YOU WANT IT

- All-in-one product ensures full functionality of the vehicle's systems while using the lift
- Fully compliant with FMVSS 403/404 and the Americans with Disabilities Act (ADA) for wheelchair lift interlocks
Idle Timer Controller

Idling Engine Shutdown System

WHAT IT DOES

- Automatically shuts the engine down after a set period of time (configurable)
- Prevents unnecessary idling

WHY YOU WANT IT

- Helps meet state and local anti-idling regulations
- Allows override if equipment is in use

Intelligent Lift Interlock System™

*Shift Interlock for Manual or Electric Doors*

WHAT IT DOES

- Prevents the vehicle from shifting out of Park if the wheelchair or ramp is in use or until properly stowed
- Prohibits lift operation unless the vehicle is in Park and the park brake is set

WHY YOU WANT IT

- Ensures safe operation of vehicle equipment
- Fully compliant with FMVSS 403/404 and the Americans with Disabilities Act (ADA) for wheelchair lift interlocks

LOAD CONTROL SYSTEMS

FlexTech™

Programmable Electrical System

WHAT IT DOES

- Simple multiplex system designed to control loads and customize vehicle operation
- Connects electronic modules through the vehicle network

WHY YOU WANT IT

- Minimizes wiring and eliminates the need for timers, flashers and latching relays
- Settings are easily customized through our Graphical User Interface using AND/OR logic

OBSTACLE DETECTION

Camera Controller

Expanded View Safety System

WHAT IT DOES

- Activates up to three cameras when turn signals are on or the transmission is in Reverse

WHY YOU WANT IT

- Increases the driver's range of vision while the vehicle is in motion; perfect for vehicles with limited lines of sight

HawkEye™

Object Detection System

WHAT IT DOES

- Using ultra-sonic sensors in the front and rear vehicle bumpers, the system alerts the driver with visual and audible warnings

WHY YOU WANT IT

- Automatically activated when in Reverse
- LED display makes it easy to determine the location and distance of the object

SAFETY

Engine Monitoring & Shutdown System

Automated Powertrain Protection

WHAT IT DOES

• Monitors powertrain conditions and initiates a warning and engine shutdown sequence if parameters are exceeded

WHY YOU WANT IT

• Helps prevent engine/transmission damage

FlexSpeak™ ADA

Complete Bus Stop Announcement System

WHAT IT DOES

• Automatically broadcasts bus route and safety information verbally and visually using the vehicle's PA system and a destination sign

• Integrated GPS unit delivers accurate location details to trigger system messages

WHY YOU WANT IT

• Provides an improved transit experience for all passengers

• Fully compliant with the Americans with Disabilities Act (ADA) stop announcement regulations

MobiliSafe™

Wheelchair Securement Monitoring System

WHAT IT DOES

• Ensures the wheelchair is immobilized and the passenger is buckled during transport

• Head unit display provides easy setup configuration and in-use procedure guides for the operator

WHY YOU WANT IT

• Compatible with both new and existing vehicles

• Records and stores securement data in case of an accident

Crank Disable/Crank Enable

Safe Startup System

WHAT IT DOES

• Prevents engine start-up or allows engine start-up depending on customizable safety conditions

WHY YOU WANT IT

• Helps to avoid unintended vehicle movement

• Inexpensive safety enhancement, required by some states

Pre-Trip Module

Light Cycling & Bluetooth CAN Data

WHAT IT DOES

• Automatically rotates through all exterior lights

WHY YOU WANT IT

• Allows for a single person to complete a pre-trip inspection

• Includes function to provide vehicle data for third-party software packages via Bluetooth-enabled devices

SAFETY CONTINUED

SafeSTOPS™
Student Transportation Off-Boarding Protection System

WHAT IT DOES
• Ultrasonic sensors detect objects in the doorway

• Large LED display and beeper alerts the driver before the vehicle is put in motion

WHY YOU WANT IT
• Prevents children from getting trapped in bus doors and potentially life-threatening situations

---

School Bus Flasher
Light and Arms Controller

WHAT IT DOES
• Helps protect students by alerting nearby drivers as the bus approaches a stop

• Controls the flashing function of amber and red lights, plus operation of stop and crossing arms

WHY YOU WANT IT
• Increases visibility and indicates that children are exiting the vehicle

• Integrates with FlexTech for extra functionality

Seat*Link*™
Seat Information Tracking System

Sold exclusively through Freedman Seating Company

WHAT IT DOES
• Displays and tracks the occupancy and belt status of passenger seats in a vehicle

WHY YOU WANT IT
• Helps ensure all passengers are safely belted

SPEED LIMITER

Speed Sentinel™
Road Speed Limiter

WHAT IT DOES
• Limits the maximum vehicle speed, but does not limit the engine output

WHY YOU WANT IT
• Helps prevent accidents and unsafe conditions

• Includes modes for passing traffic, emergency override and a theft deterrent feature

THEFT PREVENTION
PRODUCTS

CATalert™

Catalytic Converter Anti-Theft Alarm

WHAT IT DOES

• Helps prevent stolen catalytic converters

WHY YOU WANT IT

• Warns away thieves with an audible alarm

• Option to report real-time tampering via telematic devices

• Protects costly replacement parts

IdleLock™

Anti-Theft for Idling Vehicles

WHAT IT DOES

• Allows the engine to idle with the transmission locked in Park

WHY YOU WANT IT

• Prevents vehicle theft while all lights, equipment and HVAC are fully functional

• Driver can remove the key and lock the doors for added protection
