

# InterMotive Connect

*Connecting You from Switch to Load*

## WHY INTERMOTIVE CONNECT?

**One-stop shop for vehicle body harnessing and integrated electronic control solutions**

**Digitized, automated processes**

**Advanced as-build prints**

**Multicolor wire marking and ultrasonic connections**

**Individual harness testing and certification labeling**

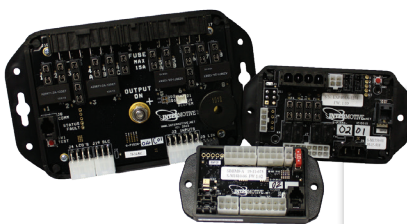

## About Us

Introducing InterMotive Connect, a new division of the company. Located in Elkhart, IN, InterMotive Connect uses advanced equipment and software to provide you with superior, customized wire harnessing solutions.

With our digitized design and build processes, we can meet your complex specifications without sacrificing precision or efficiency. Complete individual harness testing and certification labeling ensures the highest level of quality and traceability.

As a leading electronic control systems manufacturer, InterMotive has established a reputation making high-quality harnesses for our products for over 25 years.

We have now expanded our harness business to fulfill your harness needs. **Trust our expertise as your single-source partner from switch to load.**
