

InterMotive's next generation of officer protection and custom CAN utilization

AUBURN, CALIFORNIA – May 14, 2025

InterMotive Vehicle Controls, a leading manufacturer of electronic control systems, announces a blended product that offers increased functionality for law enforcement vehicles.

OpsVantage combines Upfitter Interface Module®+ (UIMP) and Police Interface Module (PIM) features to control equipment and enhance vehicle capabilities with a range of multi-functional options.

Built specifically for the 2025 RAM 1500 DT, OpsVantage provides CAN vehicle data access to activate and operate sirens, lights and more. Integrated theft prevention for idling engines provides vehicle and asset security. Other features can include:

- Officer protection (motion detection behind the vehicle)
- Covert surveillance assistance (exterior/interior light and chime deactivation)
- Quick equipment activation (custom reprogramming of steering wheel auxiliary buttons)
- Increased visibility (wig-wag lights)

For more details, contact LGS Group Sales Manager Bryce Grenon at 530-368-9193 or go online at intermotive.net/law-enforcement/.

###

InterMotive Vehicle Controls provides commercial safety and performance optimization products. Our plug and play electronic control systems leverage a vehicle's own data networks to enhance its functions in new ways. We specialize in custom solutions for law enforcement, ambulance, fire truck, work truck, transit/paratransit, school bus, RV and personal-use mobility industries.
