

# Police Interface Module

## *Multi-function System*

### Overview

- Designed specifically for law enforcement vehicles to allow for multiple InterMotive features to be utilized on one module
- Configurable for multiple additional features
- Less expensive than a-la-carte module purchases
- Includes features unique to each vehicle line

### Features

- Reprogramming of steering wheel auxiliary buttons to be used in any combination of momentary, latching, timed or "radio"
- Buttons can be used to activate lights, sirens, spotlights, push-to-talk radio and installed features
- Includes Intermittent Fault Filter™ (IFF) technology to eliminate false readings

<b>Optional Features</b>	Automatic Fast Idle Audio Mute Chime Mute Mode Surveillance Mode	N/A	Blackout Mode Auto Park Override ( <i>Durango</i> ) Surveillance Mode™ IdleLock with AutoSense™ Technology ( <i>Durango</i> )	Blackout Mode IdleLock with AutoSense™ Technology

### Feature Descriptions

**Auto Park Override:** Disables the OEM settings, allowing the vehicle to remain in Drive with the driver's side door open and seat belt unbuckled.

**Auto Sport Mode:** Automatically activates the vehicle's Sport Mode feature when custom conditions are set (e.g., turning on lights or sirens).

**Blackout Mode:** Turns off exterior/interior lights and alert chimes when activated. Module is disengaged when vehicle reaches 5-20 mph.

**Chime Mute Mode:** Silences alert chimes (seat belt, key in ignition, headlamps on and door ajar) when activated. Also turns off daytime running lights.

**Dark Car:** Deactivates the interior, dome and parking lights.

**Engine Stop/Start Override:** Disables the OEM stop/start system, allowing the engine to continue running when the vehicle is stopped.

**IdleLock with AutoSense™:** Theft prevention system that automatically activates when the driver exits an idling vehicle with a fob.

When enabled, the transmission is locked in Park.

**Intelligent Switch Mode:** Allows for custom programming of steering wheel buttons to activate InterMotive features or operate lights, sirens and more.

**Secure Park Active Signal:** Provides outputs to disable the weapons rack, trunk release or other equipment when the vehicle is in Secure Park.

**Surveillance Mode:** Detects motion behind the vehicle and alerts the officer with audio/visual warnings, locks doors and more.
