Camera Controller Module

Vehicle Camera System

Overview

- Activates up to three cameras by providing three outputs to trigger system (left and right turn, and Reverse)
- Simple plug and play connections; no cutting of factory wires
- Reduces labor and warranty costs

Features

- Enhances vehicle safety by expanding viewing area
- Cameras are continuously enabled when the turn signals are activated or when the transmission is in Reverse
- Provides additional safety interlock output that can be used for slide out or other vehicle function
- Built-in self diagnostics
- Perfect for vehicles with limited lines of sight including buses, work trucks and RVs

Product features may vary by make, model or year. See instructions for complete details.
