# Break Out Box (BOB<sup>e</sup>)

Vehicle Network Multi-Access Hub

## Overview

- BOB<sup>e</sup>™ removes most compatibility issues when multiple devices connect to the vehicle network
- Simple plug and play connection to the OEM chassis through the OBDII or a gateway connector, providing a clean, invisible installation
- Eliminates the challenge of installing multiple harnesses when connecting multiple devices

## Features

BOB<sup>e</sup> is enhanced with the addition of the InterMotive Safe-T-Net™ product, which:

- Provides five module connections to the vehicle network
- Includes an auxiliary CAN network for third-party devices, minimizing impact on the vehicle network
- Passively acquires vehicle data and passes it to active third-party devices without requiring changes to their modules

*Product features may vary by make, model or year. See instructions for complete details.*
