# FlexSpeak™ ADA

Talking Bus System

## Overview

- Automated audio/visual voice annunciator system provides an improved transit experience for all passengers
- Automatically broadcasts bus route and safety information with verbal and visible communication
- When combined with a destination sign, the system is fully compliant with the Americans with Disabilities Act (ADA) transit regulations

## Features

- Integrated GPS unit delivers accurate location details to trigger system messages
- Connects to the vehicle's public address (PA) speaker system for audio announcements
- Interfaces with in-vehicle destination sign systems and activates display to show corresponding messages
- Fixed route stop locations and messages are easily configured using the FlexSpeak programming utility software
- FlexTech™ integration provides even more messaging functionality

*Product features may vary by make,  
model or year. See instructions  
for complete details.*
